

Installation Instructions for Hood Mount Bar KC 7409 For 2007-08 Jeep JK

Thanks for choosing a KC HiLiTES product. We take pride in building the highest quality, best engineered systems possible. Your satisfaction with our product is important, so if you have any questions, please call our customer service line at 800-528-0950.

Installing the Bar

1. The hood must be closed and latched during installation.

2. Remove the 4 Torx head bolts from the hood hinges and discard.

3. Place the light bar over the hood hinges with the light tabs towards the rear of the vehicle.

4. Insert each of the 4 supplied hex bolts with washer through the light bar brackets and mating holes in the hood hinges.

5. Loosely thread each bolt with washer by hand until all 4 bolts are started. Note: The light bar brackets may need to be flexed in or out to start the bolts correctly.

6. After the bar is aligned, tighten all hardware.

You're DONE! - - - - - Enjoy your new KC product.
