

INSTALLATION INSTRUCTIONS

JEEP GRAND CHEROKEE
(1999-2004)

NOTE: READ INSTRUCTIONS COMPLETELY BEFORE INSTALLING THIS BRACKETRON PHONE MOUNT.

All phone mount instructions are written from the drivers seat position looking forward at the vehicle dash. We advise caution whenever your removing or handling plastic parts of a vehicles dash. **WARNING:** Unnecessary force or pressure can cause pieces to crack or break.

Logo and part number will be right side up and readable when installed.

TOOLS NEEDED: #2 Phillips screwdriver, hook tool.

PARTS INCLUDED: One CBM and instructions.

LOCATION OF MOUNT: To the right of the radio

Step 1.

Start by **Carefully** inserting the hook tool behind the top right corner of the trim bezel that surrounds the radio. Note This bezel also has the two air vents above the climate control integrated as all one piece. Pull toward you to release the top right clip. Do the same with the top left corner of the bezel releasing the top left clip. Place the hook tool behind the bezel to the right of the air vent. Pull toward you to release the right side clip. Do the same on the left side of left air vent releasing the left side clip. Once the bezel is loose, set it in a safe place.

Step 2.

Locate and remove the four screws that hold the radio in place using the #2 Phillips screwdriver. Set the screws in a safe place. Grasp the radio and slide it out of the radio cavity enough to get the **Bezel Mount** behind the radio on the right side. Make sure the screw holes on the right side of the radio are aligned with mounting holes on the **Bezel Mount**. **Carefully** slide the radio back into position in the cavity. Replace all four-factory screws and tighten them down.

Step 3.

Reinstall the dash trim bezel securing the four clips. Install a **Bracketron** phone holder or Amps compatible device to your **Bezel Mount**.

Your installation is complete.
