

## Prime Drive LED Light Installing & Using This Product

- 86 – chassis ground
- 85 – 12v + trigger from switch
- 30 – 14 gauge 12+ from battery (minimum gauge is 14 for 2 lights)

Duplicate relay packs can be wired for additional lights. Switch trigger can be jumped from relay to relay.

Remaining black wire on light should be chassis grounded or grounded to the negative terminal of the battery; making sure grounding surface is cleaned down to metal, using a stainless steel bolt to secure grounding ring.

### Warning –

- Make sure all wiring is away from hot surfaces and moving parts.
- After installing lights be sure to position lamps so they do not blind other drivers. Position your vehicle approximately 20 feet from a wall. The top of the beam projected on the wall should be 3 inches lower than the lights center.
- Do not place lights near anything flammable after being used.
- Some vehicles create high voltage upon starting or shut down, do not have lights on when starting or turning off the vehicle.
- Lighting laws and regulations vary by state. Check your local laws before using.
- Let lights cool down before handling after use.
- Do not look directly into lights; doing so can cause eye damage.

### Lifetime Limited Warranty –

1. Proof of purchase is required to validate warranty and is valid from the original date of purchase. All products must be bought through a Vision X Authorized Dealer or one of their dealers/resellers.
2. Improper installation, accident, abuse, neglect and normal wear are not covered under warranty.
3. Lights operated in environments over 150° Fahrenheit are not covered under warranty.
4. Warranted items will be repaired to working condition and returned without cosmetic alterations.
5. All customer warranties should be handled through the dealer/reseller the product was purchased from.
6. If product is not under warranty, clients will have to cover shipping charges both ways.
7. Additionally, non-warranted items can be repaired at the customer's expense of parts and labor, at the discretion of Vision X, who will provide an estimated repair cost before proceeding with the repair.
