Floor Liner Installation

Step 1:

Permanently remove all existing factory or aftermarket floor mats or liners. Do not stack or combine your new floor liners over any other floor mats or liners. For best results, we recommend vacuuming your vehicle carpet before installation. Make sure carpet is dry.

Step 2:

Place the driver side liner into position and put the original equipment carpet anchor hook through the pre-cut hole in the floor liner. Then install passenger and rear floor liners. Check for proper fitment.

Step 3:

Use and Enjoy! Enter and exit vehicle in foul weather without worry about your carpet. When floor liners are dirty, simply remove as needed and hose them off.

Limited Lifetime Warranty:

Thank You and enjoy!
