

POLY PERFORMANCE MFG. 870 INDUSTRIAL WAY, SAN LUIS OBISPO, CA (805) 242-0397

## 5103 JEEP JK LICENSE PLATE DELETE

### GENERAL NOTES:

- These instructions are also available on our website; [www.synergysuspension.com](http://www.synergysuspension.com). Check the website before you begin for any updated instructions and additional photos for your reference.
- The installation of this kit can be done with simple hand tools.

### INSTRUCTIONS:

- 1) With the factory license plate mount removed. The tub of the jeep should appear as follows:

- 2) Remove the screw inserts by reaching behind the panel. (Can be accessed by reaching through the fender well with the inner fender removed)
- 3) Pinch the inserts from behind and push them through the tub of the jeep. This can be done by hand or with a pair of pliers.

- 4) With both inserts removed, note the “UP” orientation of the 5103 JK license plate delete panel and install into the tub. The panel should snap into position and secure itself to the tub. Completed part installation should appear as shown below.
