

Cross over bracket (60325/60330) Installation Instructions

Step 1

- There are multiple uses for the crossover bracket. You can mount the 2" crossover bracket anywhere on a 2" tube. Mount around the tube using the 5/16 hardware.
- The picture about shows different examples of where and how the brackets can be mounted.
- Mounts can be positioned in three different locations; 90/180/90 degrees.
- Get creative and use the crossover bracket for all of your mounting needs!
