Hyline Offroad would like to thank you for your recent purchase and look forward to serving you in the future.

Hyline Offroad Staff

Should you find any product damaged, missing or have any questions before, during or after installation please call Hyline Offroad directly. Do not call the place of purchase. Please call us at 888-495-4631 or email at techsupport@hylineoffroad.com

PLEASE READ INSTRUCTIONS BEFORE BEGINNING INSTALLATION

Light Bar Mount Installation

Step 1 – Using Torx Socket remove the 3 bolts in each windshield pillar (See Figure 1). You will NOT be re-using this original hardware.

Step 2 – Install both brackets with one rubber liner behind each to protect the vehicle's painted surface and fasten using supplied 5/16" x 1" hardware. DO NOT TIGHTEN.

Step 3 – Now install your Light Bar between both brackets. With the mounting bracket hardware still loose you can run the light wiring behind the brackets. This is only one option for running wires. It is your decision to run wiring in any other way.

Step 4 – After wiring is run you can tighten the hardware and light bar hardware appropriately.

Send your OFFROAD pictures to pics@HylineOffroad.com . If we choose any one of your pictures to be used on our website, We send you a FREE Hyline Offroad T-Shirt.

Attention

Installation instructions provided must be read and followed exactly when installing product. Failure to do so could potentially result in injury or death of any occupants in the vehicle. **WEAR SEAT BELTS AT ALL TIMES WHEN DRIVING!**

Though our products are rugged, they are primarily designed and built to enhance the appearance of the vehicle and will not protect from death or injury in the event of an accident. Adhere to all vehicle manufacturers specifications
