

TERAFLEX

INSTALLATION GUIDE

Installation Guide for the Rear Adjustable Track Bar Part #001744000 (TBART)

Fits TJ Wranglers ('97-newer) and requires use of a TeraFlex rear track bar bracket or equivalent.

Components:

- 1 Adjustable rear track bar
- 2 1/2-inch bolts
- 2 1/2-inch nuts
- 2 Flat washers
- 2 Lock washers

Instructions:

1. Disconnect stock track bar from upper and lower track bar mounts.
2. Connect the frame end of the adjustable rear track bar first using the hardware included.
3. Connect the lower end of the adjustable rear track bar to the rear track bar bracket using the included hardware. The product is shipped at stock length for use on stock vehicles or vehicles with three-inch lifts with a rear track bar bracket.
4. Torque bolts to 70 ft. lbs.

Four-Inch Suspensions:

Lengthen the adjustable rear track bar one, full rotation. One rotation is equal to 0.1 inch.
