

# INSTALLATION INSTRUCTIONS

Part No. 30483

Wrangler TJ Grille Guard

## COMPONENTS:

ITEM	QTY	DESCRIPTION
A	1	Grille Guard Assembly
B	2	Surlyn Gasket

## HARDWARE:

ITEM	QTY	DESCRIPTION
1	4	½" x 1 ½" Button Head Bolt
2	4	½" Diameter Flat Washer
3	4	½" Diameter Surlyn Washer

**NOTE:** Use anti seize compound on stainless steel hardware for ease of removal and installation of product.

## INSTRUCTIONS:

1. Remove and discard the four ½" bolts that fasten the bumper to the frame rails. If vehicle is equipped with tow hooks, remove and store for future use.
2. Carefully position grille guard (A) on top of frame rails and place surlyn gasket (B) between frame and grille guard (A).
3. Coat threads on stainless steel screws (supplied) with anti seize compound and combine bolt with flat washer and surlyn washer to fasten grille guard to top of frame rail. Torque stainless steel bolts to 45 ft. lbs.
