MODEL # JW-DSH

1981 & up Jeep Wrangler Door Storage Hanger

CAUTION

This product is designed to be mounted to a wall that has studs spaced 16" on center. Failure to secure the Door Storage Hanger to studs can result in damage to product, doors or serious injury.

INSTALLATION INSTRUCTIONS

Assemble Door Storage Hanger before you fasten it to the studs...

1. With the Door Storage Hanger standing up install the Back Brace using the 4 supplied 1/4 " nuts and bolts as shown in picture #1 and #2.

2. Install the Top Door Hinge Bushings using the 1/4" bolts supplied as shown in picture #4.

3. Install the Lower Door Hinge Bushings using 1/4" bolts.
Note: There are 3 openings.
The Bottom Hole and Center Hole are used for Jeeps 1981 to 2006 as shown in picture #5.
The Upper Hole and the Center Hole are used for Jeeps 2007 and newer as shown in picture #5.

You are now ready to mount your Door Hanger to the wall.

CAUTION

1. Locate the wall studs. This product is designed to be mounted to a wall that has studs spaced 16" on center. Failure to secure the Door Storage Hanger to studs can result in damage to product, doors or serious injury.

The suggested height for the bottom of the mount is 28"

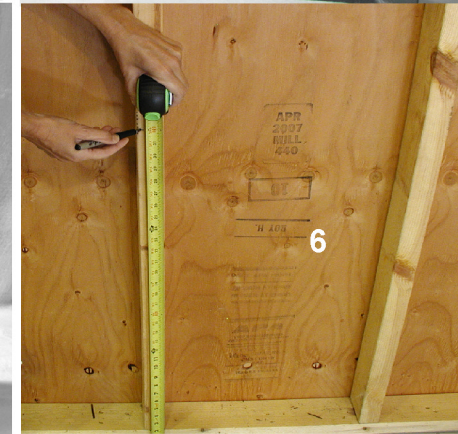

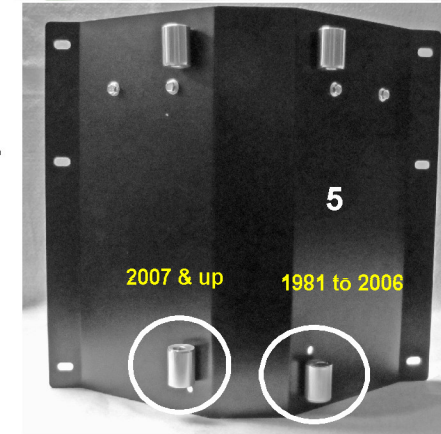

2. Hold the mount up to the wall (making sure that it is level) and mark the 6 mounting holes on the wall as shown in picture #6.

3. Using the 3/16 drill bit included with the kit, pre-drill the holes.

4. Using the six 5/16 lag bolts and washers supplies, attach the Door Hanger to the wall.

You are now ready to hang the doors.

1. Fold Side Mirrors In and Roll The Windows Down then carefully remove the doors from your Jeep. Hang them on the wall hanger as shown in picture #7. The driver side door will hang on the left and the passenger side door hangs on the right side of the mount. This way, the painted surface faces toward the wall to protect paint from scratches. Your doors will hang on the wall hanger in the same manner that they hang on your Jeep, by the hinges.
