INSTALLATION INSTRUCTIONS

PART No.

FB15111 Jeep® '18-Current JL Wrangler Entry Guards

1) PREPARE YOUR VEHICLE

With vehicle paint safe cleaners and cloths, clean your vehicle's entry ways free of dirt and debris to help with the installation.

2) REMOVE TAPE BACKING

The proper placement of each guard is indicated by size and by the direction our logo faces. Larger guards are for the front seats, and the Logo on every guard always faces the rear of the vehicle.

Starting with the front larger guard, pull the adhesive backings away.

3) INSTALL

Count 5 arrows in from the rear (Logo points to the rear). Place the guard so that your interior panel and entryway seams lie between the fifth and sixth

Press down firmly and repeat on the opposite side.
