Jeep® JL Wrangler 2018-Current Windshield Light Bar Bracket

1) REMOVE OEM WINDSHIELD SUPPORT BOLTS

Using a T40 Torx wrench, remove the four bolts holding the OEM windshield support plate.

2) INSTALL LIGHT BAR BRACKET

Using a 5mm Allen wrench install 2 longer bolts into the top of the light bar bracket, followed by 2 shorter bolts into the bottom of the bracket.

Repeat steps 1&2 on the opposite side.

3) LIGHTING

Install your light bar of choice following the manufactures instruction.
