

QuadraTop® Clearview WindStopper

Installation Manual for '80-'06 Jeep® CJ, YJ & TJ Wrangler Vehicles
#11028.30XX

Parts List:
WindStopper Curtain - QTY 1

Required Tools:
Safety Glasses

⚠ WARNING ⚠

Loss of vehicle control involves risk of death or serious injury, particularly to parts of your body not restrained within vehicle. This product is intended for weather protection only and should not be relied upon to contain occupants in the event of an accident or to protect from either ground contact or falling objects. To reduce risk of accident or injury:

- ALWAYS WEAR SEATBELTS
- Always keep head, arms & body parts within vehicle.
- Fully secure or stow the fabric top before driving according to instructions. Never try to adjust the fabric top while driving. Do not use if damaged or worn.
- Read and follow all instructions & warnings accompanying this product, in your vehicle owner's manual and Off Road Driving Supplement.

⚠ CAUTION ⚠

RISK OF EYE INJURY. Safety glasses should be worn at all times while installing or maintaining this product.

NOTICE

The WindStopper is designed to protect the inside of your vehicle against light showers and against wind buffeting. It is not a water-proof cover. Water may leak inside your vehicle through around the sport bar during heavy down pours.

Important Safety Information:

Your QuadraTop® Clearview WindStopper is intended to increase the fair weather enjoyment of your off-road capable vehicle. Before installation, please take a moment to review the

following safety information and installation instructions. Important safety information is generally preceded by one of three signal words indicating the relative risk of injury.

The signal words mean:

⚠ WARNING ⚠

a hazardous situation which, if not avoided, could result in death or serious injury. You CAN be KILLED or SERIOUSLY HURT if you don't follow instructions.

⚠ CAUTION ⚠

a hazardous situation which, if not avoided, could result in minor or moderate injury. You CAN be moderately HURT and also may suffer property damage if you don't follow instructions.

NOTICE

Careful attention is required to this instruction or operation but does generally not relate to personal injury. Damage to your Quadratec® product or other property may result if you don't follow instructions.

Before You Begin Installation:

Congratulations on your purchase of the QuadraTop Clearview WindStopper! This high quality roll bar curtain is designed to enhance fair weather driving pleasure while limiting wind buffeting, providing shade and minimal shelter from light rains. We have used only the finest materials in creating this curtain but like any product that is exposed to the elements, there is some general maintenance that is required to keep it looking like new. Please see page 7 for these important maintenance tips.

When unpacking, check to make sure all parts are included. If any part is missing or broken, please call Quadratec Customer Service at 800-745-6037 as soon as possible.

Important: Make sure you become familiar with the installation process of this top by reading the following instruction sheet thoroughly. As you will see, these instructions are broken-out depending on the model year/generation of your Jeep CJ or Wrangler (YJ or TJ) vehicle.

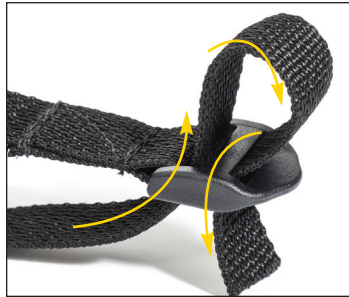

Important: For a smooth fit and ease of installation, this product should be installed at temperatures above 72 degrees. Below this temperature, the fabric may contract an inch or more making it difficult to install. We highly recommend taking the product out of the package and letting it sit inside a warm place or direct sun light for 1-2 hours before you install the top. When warm, this product will install quickly.

It is normal for fabric and soft glass to contract and wrinkle when stored in the shipping carton. In a few days the fabric will relax and wrinkles will disappear. Thank you again for your purchase and let's start the installation process!

Pre-Installation of WindStopper:

Threading Straps Through Buckles:

Throughout the installation, you will need to thread webbing straps through buckles several times. Please review the picture for correct strap routing through the buckles. As a rule of thumb, run the strap below and through the sewn side of the buckle first and then back down through the end of the buckle. Tighten the strap by simply pulling the exposed webbing after threading the strap through the buckle.

The Bimini/WindStopper/Tonno Summer Top Combo Concept:

The WindStopper is a great way to stop air flow into the Cab when driving without a soft top. This WindStopper is ideally designed to be used in combination with our Bimini Top/Bimini Top Plus and the Tonno Cover to create the ultimate summer cab top combo. Please note that this product

combination is NOT designed as a weather resistant substitute for a soft top. If you still need to purchase a Bimini Top, or the Tonno, go online @quadrtec.com to find the correct application for your particular Jeep Wrangler vehicle.

NOTICE

This product is custom designed to be used in conjunction with an optional Tonno Cover. Each WindStopper has a built-in zipper on the front edge where this Tonno Cover can be attached. If you choose not to use the Tonno Cover, the zipper portion will not be required and will remain attached under the flap of your WindStopper.

NOTICE

The WindStopper is designed to protect the inside of your vehicle against light showers and against wind buffeting. It is not a waterproof system. Water may leak inside your vehicle through around the sport bar during heavy down pours.

CAUTION

Before you begin, remove your soft top or hard top (if present). Hard Tops for Jeep vehicles are heavy. We strongly recommend you seek the assistance of another able-bodied person to lift and remove the hard top if present on your vehicle.

Installation of WindStopper: (all versions)

Installation of Upper Straps:
 Carefully remove your hard top or fold down/remove your soft top. Once the top is removed/folded down, locate the top center of your WindStopper and attach the top straps centering the product on your Sport Bar. Do not tighten these straps at this point. See FIG1.

Installation of Lower Straps: Once the WindStopper is centered, locate the side straps of your WindStopper and attach them to the vertical sides of the Sport Bar. If you are not attaching the optional Tonno cover to your WindStopper, tighten all straps starting on the top and working left then right to ensure the WindStopper stays centered on the Sport Bar. If you are attaching the optional Tonno Cover, keep these straps loose and proceed next step. See FIG2.

NOTICE

Only Quadratop Brand Tonno Covers and WindStoppers can be attached with the installed zippers. Other brands either do not use zipper attachments or use different styles of zippers.

Optional - For use with our Tonno Cargo Cover: Before tightening your WindStopper, attach the Tonno Cover to the WindStopper using the sewn in zipper. Secure the Zipper all the way across the WindStopper. Tighten all WindStopper straps starting on the top and working left then right to ensure the WindStopper stays centered on the Sport Bar. Then begin the installation of your Tonno Cover. See FIG 3. Also, see Tonno Cover installation instructions for proper Installation)

Enjoy!

Care and Maintenance:

Your QuadraTop accessory is made of the finest materials available but to keep it looking new and for the maximum possible wear, it will need periodic cleaning and basic maintenance. The main threats to your soft top are pollutants, dirt and grime. By keeping your product clean you will prolong its life. We recommend the following to keep your top like new:

Washing: The soft top fabric should be washed often using a mild soap, warm water and a soft bristle brush. You can also use special soft top cleaners available on our website at quadratec.com. Make sure that after cleaning you rinse with clear water to remove all traces of soap to avoid residue.

Zippers: Keeping the zipper cleaned and lubricated with a silicone lubricant (available online) will help prevent damage and keep the zippers in a smooth working condition. If zipper opens behind the slider, the slider may have been spread apart. This problem can usually be fixed by using an ordinary pair of pliers to bring the sides back into parallel. Return slider to the end of the zipper in the normal Open position. Squeeze lightly at first and test zipper. If the zipper continues to remain open squeeze more firmly with pliers and try the zipper again. Repeat procedure until your zipper operates correctly.

Windows: It is very important that you keep your QuadraTop windows clean! Use a mild soap and water solution to gently clean your windows. NEVER wipe your windows clean with a dry cloth! Dust and dirt on a dry cloth can scratch your windows causing “fogging” and permanent damage. When removing your windows, store them with a towel between the panels/rear windows to protect them from damage. If frost or ice forms on the outside of your windows during the winter, DO NOT use an ice scraper to remove this frost. Over time you will see small micro scratches in your windows which are natural wear and tear. These Micro scratches can be “polished” out using the window polish available at Quadratec.com.

Water/Fabric: In the event of seeping through the seams, 3M Scotchgard® may be applied on the inside of the seams to stop the leak. Rips in the fabric may be repaired with Bondex® iron on patches. Iron the patches to the Inside of the top, carefully following the Bondex® instructions.

Snaps: Not all models have snaps. If present, keep snaps cleaned and lubricated with silicone to help prevent snaps from sticking to the studs. If a snap does become stuck to a stud, use a screwdriver and GENTLY pry apart to prevent permanent damage to the snap or the top fabric.

Quadratec Limited Warranty

for QuadraTop® Clearview WindStopper Roll Bar Curtains

Your QuadraTop Clearview WindStopper is covered by the following **Limited Warranty** provided exclusively by Quadratec, Inc. 1028 Saunders Lane, West Chester, PA 19380.

This **Limited Warranty** is the only warranty made in connection with purchase. Quadratec neither assumes nor authorizes any vendor, retailer or other person or entity to assume for it any other obligation or liability in connection with this product or **Limited Warranty**.

What is Covered:

Subject to the terms, exclusions and limitations herein and with respect only to soft tops first sold in the United States, Quadratec warrants to the initial retail purchaser only that your QuadraTop Clearview WindStopper shall be free of defects in material and workmanship **for a period of 3 years from date of initial retail sale.**

All other warranties are hereby disclaimed, except to the extent prohibited by applicable law in which case any implied warranty of merchantability or fitness for a particular purpose on this product is limited to 3 years from date of initial retail sale. Quadratec reserves the rights to: (a.) require invoice or other proof your product is within the terms of this **Limited Warranty** as a condition of warranty service and, (b.) make future revisions to this product and **Limited Warranty** without prior notice or obligation to upgrade your product.

What is Not Covered:

Your Quadratec **Limited Warranty** does not cover products or parts Quadratec determines to have been damaged by or subjected to: (a.) installation damage, alteration, modification, failure to maintain or attempted repair or service by anyone not authorized by Quadratec, (b.) normal wear and tear, cosmetic damage or damage from water immersion, (c.) Acts of God, accidents, misuse, negligence, inadequate mounting or impact with vehicle(s), obstacles or other aspects of the environment, (d.) theft, vandalism or other intentional damage.

Remedy Limited to Repair/Replacement:

The exclusive remedy provided hereunder shall, upon Quadratec inspection and at Quadratec's option, be either repair or replacement of product or parts (new or refurbished) covered under this Limited Warranty. Customers requesting warranty consideration on QuadraTop soft top should first contact Quadratec to obtain a RGA number (610-701-3336). All labor, removal, shipping and installation costs are customer's responsibility.

Other Limitations - Exclusion of Damages - Your Rights Under State Law:

In consideration of the purchase price paid, neither Quadratec nor any independent Quadratec distributor/licensee are responsible for any time loss, rental costs, or for any incidental, consequential, punitive or other damages you may have or incur in connection with any part or product purchased. Your exclusive remedy hereunder for covered parts is repair/replacement as described above.

This **Limited Warranty** gives you specific rights. You may also have other rights that vary from state to state. For example, some states do not allow limitations of how long an implied warranty lasts and/or do not allow the exclusion or limitation of incidental or consequential damages, so the limitations and exclusions herein may not apply to you.
