## Corbeau Baja Bench Jeep Seat Bracket

*Corbeau USA, LLC provides the following mounting bracket installation information as a general set of instructions to help you properly install your Corbeau Seats and Brackets. These instructions are not all-inclusive and may not cover every aspect of installation as some applications may require extra parts or interior modifications. Please contact Corbeau USA, LLC or your local authorized dealer if you have installation questions. We assume no responsibility for proper or improper installation.*

### Installation Guidelines

1. Remove your stock seats and brackets from your Jeep (save original nuts and bolts as these will be used later in the installation).
2. Remove the center bolt that attaches the seat belts to the Jeep.
3. Place the Corbeau bracket in the Jeep and line up the holes.
4. Using your stock hardware, thread all bolts back into the mounting holes (do not tighten all the way).
5. Once all bolts are threaded into position you can then tighten them down.
6. Place Corbeau seat on top of the bracket.
7. Using hardware provided by Corbeau, attach the seat to the bracket (do not tighten all the way).
8. Once all bolts are threaded into position you can then tighten them down.
