Stinger-Bar

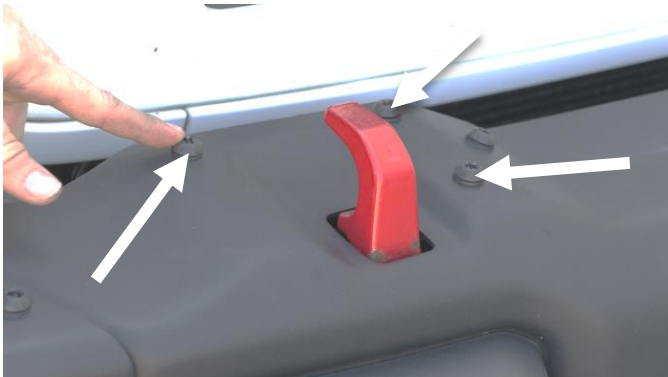

QTY

1

2018+ Jeep® JL Wrangler & 2020+ JT Gladiator Stinger-Bar For Factory Modular Steel Bumper

1) REMOVE THE BUMPERS BOLTS

With a 3/8" ratchet, ratchet extension, and a T45 torx bit, remove the 6 bolts located on the top of your Jeep's factory front bumper. Set your bolts aside.

2) INSTALL YOUR STINGER-BAR

Hold your stinger bar up to your front bumper making sure the bolt holes align.

Once you have your stinger-bar set in place, screw in the bolts.

**2018+ Jeep® JL Wrangler &
2020+ JT Gladiator**

Stinger-Bar For Factory Modular Steel Bumper

After screwing the bolts into place, stand back and make sure your stinger bar is centered with your bumper.

3) ENJOY YOUR NEW FISHBONE STINGER-BAR!

Once centered, finish tightening the bolts with a T40 torx bit.
